

NATIONAL SHERIFFS' ASSOCIATION

October 15, 2009

To Whom It May Concern:

On June 20, 2009, the National Sheriffs' Association proudly endorsed Union Springs Pharmaceuticals' MyClyns[®] personal protection spray, as well as its disposable, NIOSH-approved, P95 and N95 respirators with Triosyn[®] antimicrobial (also known as ViralClyns respirators).

The NSA's endorsement followed a thorough due diligence evaluation and customer satisfaction survey by an independent agency on behalf of the Office of Sheriff throughout the United States, as well as the recommendation of an internal NSA Committee.

Questions concerning Union Springs Pharmaceuticals, MyClyns, ViralClyns and the usage of these products by Sheriffs Offices, and other state and federal agencies in the United States, may be directed to the company at (859) 384-4029.

Sincerely,

A handwritten signature in cursive script that reads "Susan H. Crow".
